Each client owns the exclusive right to their custom gifts. Here are some guidelines to remember when you create custom gifts with your logo or art.

- Image resolution should be at least 300 DPI
- Your image should fit in a square or round area depending on the gift you choose.
- Your file should ideally be a png or jpg.
- Your file can be a photo, logo, or art image.

Continue to view examples in this booklet and then be sure to email me your art and I'll be glad to create virtual images with your art and show you how it will look on custom gifts.
